-3	-1 1/4	-1 1/4	-1 1/4	-1 1/2	-1 1/2	-1 1/2	-1 1/2	-1 3/4	-1 3/4	-1 3/4	-2	-2 1/4	-2 1/2	-2 3/4	-3

Work out the bisques for each pair by finding the intersection of their handicaps in the table then subtract smaller from larger (and then round up if necessary) to give net bisques. For example a 22 and a 6 (11 1/2 bisques) playing a 9 and a 10 (9 1/2 bisques) means the 22 and the 6 have 2 bisques
