Hot press from CA Council meeting

Thanks Klim for providing us with the following snippets

- The CA has approved the setting up of a Croquet School for young people. Not sure of form yet but might be something like a four (ish) day residential.
So:
 - search your clubs for any existing young (under 21ish) AC or GC player and let Lionel Tibble know
 - if your club could host such an event more locally, then also let Lionel know
- A chance to shine? - if any club (s) out there would like to run GC World Champs in 2019it was hinted that it will be in England/Wales... then do let the CA know if you want to "throw your hat in the ring".
 - We're not too sure exactly what this might entail at the moment, but apparently back in 2009 the clubs prepared and maintained the lawns, sorted out the food, helped sort accommodation
- National Croquet Day: Brian Wilson is almost ready with publicity for this and clubs should be receiving information soon - if you're hosting an event as part of this, Brian would like to hear from you.
- The CA has filled its Admin/Shop post and Daneil Atiyah will start on April 3rd (when Liz Larsson returns from leave). He is local to Cheltenham and has an IT background
